& Entertainment

I have 30
centuries of
history

and I keep
reinventing myself

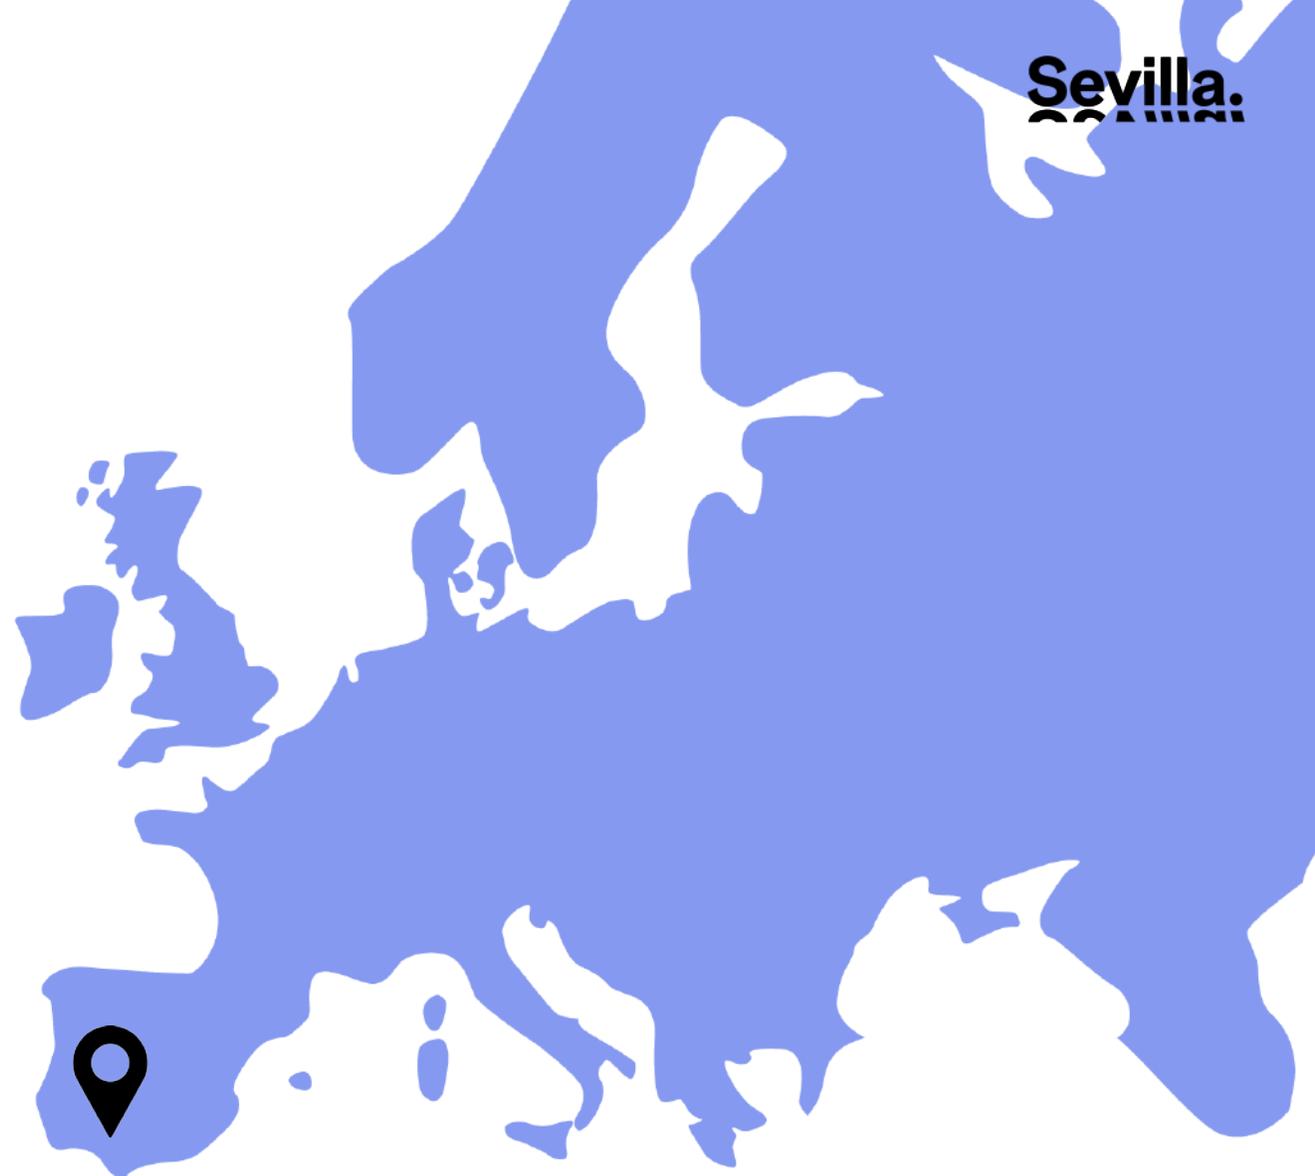

Baroque, gothic, mudéjar and very contemporary

The climate of our city is markedly Mediterranean. With more than 310 days of sunshine a year and mild temperatures, it is an incomparable advantage when it comes to locating an audiovisual production in Seville. With an unbeatable range of hotels, restaurants and services, it is one of the Spanish cities with the best security indexes and one of the best infrastructures in the country. It has an international airport, high-speed train connection with Madrid (2 hours and 30 minutes) and the rest of the national capitals; subway, streetcar, etc. In addition, the coast is an hour's drive away.

We are the place that combines open and pedestrianized spaces, design establishments and contemporary architecture along with the heritage of more than 30 centuries of history. We are a city of scenery. We offer World Heritage monuments, Europe's largest pedestrian historic centre that combines Baroque, Gothic and Mudejar styles with internationally acclaimed examples of modern architecture.

Seville also means historic neighborhoods, an industrial area, urban environments, the outline of a great river, the Guadalquivir, which adds personality in many different ways.

Sevilla Film Office

Sevilla&me

Sevilla&me is a public service, depending on the municipal entity Congresos y Turismo de Sevilla, which promotes the city as a filming location for audiovisual productions.

One of our missions is to facilitate municipal administrative procedures, assisting the work of companies that are committed to our city at all stages of production, providing institutional support, legal certainty and tax incentives. We also advise on the great diversity of locations that can be found in the city and provide contact with a wide range of professionals in the local audiovisual, who will be of great help when it comes to making a project feasible in any of its different phases.
